(54) SOCKET TERMINAL

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a socket terminal capable of suppressing temperature rise.

SOLUTION: This socket terminal 3 to be connected to square pin-shaped plug terminals 10, 11 has a contact part 1 on the tip side coming in contact with the plug terminals 10, 11 at the tip of a crimping part L to be crimped to a conducting part 5b of a cable 3 and a contact part 2 on the inside arranged in the extending direction of the plug terminals 10, 11. A heat radiating hole 3d is installed in a common base part 3c under the contact part 2 on the inside.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
